### BRAIN IMAGING IN FORENSIC CASES: PAST, PRESENT AND FUTURE

#### GUEST SPEAKER— DR. KENT KIELH

Dr. Kiehl is a Professor of Psychology, Neuroscience and Law at the University of New Mexico and Executive Science Officer of the non-profit Mind Research Network in Albuquerque, NM.

Dr. Kiehl completed his doctoral work at the University of British Columbia under the tutelage of Drs. Robert Hare and Peter Liddle. Dr. Kiehl conducts clinical neuroscience research of major mental illnesses and brain injury.

Dr. Kiehl's laboratory makes use of a one-of-a-kind Mobile MRI system to conduct research and treatment protocols with forensic populations. His laboratory has deployed the Mobile MRI to collect brain imaging data from over 5,000 offenders at ten different facilities in two States and represents the world's largest forensic neuroscience repository.

Dr. Kiehl lectures extensively to state and federal judges, lawyers, and lay audiences about the intersection of neuroscience and law. In the last several years he has worked with the Federal Judicial Center to develop the educational curriculum for Federal judges on neuroscience in the courtroom. He also serves as a legal consultant on criminal and civil cases involving brain imaging. Dr. Kiehl recently published a popular audience book, *The Psychopath Whisperer: The Science of Those Without Conscience*, which is available on Amazon.

Please either e-Transfer payment to cagielens@hotmail.com or forward your cheque payable to "**The Medical Legal Society of B.C.**" before **April 4, 2022** to:

Ms. Carol Gielens
